

Dwayne's Faith

There are moments that I feel doubt
I am just striving to figure it out
My friend's testimony remind of something true
God will see me through

Life gets in the way and I lose time
It appears that I am spending every dime
Lord I must continue to wait and pray
He will send something great on the way

Often I think of the song "You are Never Alone"
It encourages me to look to God on the throne
Occupying my mind in giving and serving help
My family, friends, and community are my first step

I choose to standup and shout
Even though I know that there will be a drought
You are going to make it, for love made a way
I am feeling good and it's not my wedding day

My friend encourages that God will take care of me
His testimony is something that everyone can see
Trials and test are not over until he takes over
I am not relying on the luck of a clover

So we can expect on the journey to have ups and downs
It's our response that they will talk about in towns
This is not an oath of a haith
It's just God through Dwayne's Faith
